### Our Team

Hospital@Home is a consultant-led service, with a permanent team of doctors, Clinical Nurse Managers and nurses, a Consultant Microbiologist and an Infection Control Nurse Specialist.

### Vhi Hospital@Home: Hospital Care at Home...

- + Hospital level treatment provided in the comfort and safety of your own home.
- + Reduced risk of hospital acquired infection; superbugs / vomiting bugs / MRSA.
- + In your home, you're the priority for infusions / medications / consultations.
- + Care is tailored specifically to your needs following a consultation with your referring doctor.
- + Emergency hospital back up for peace of mind 24 hours, 365 days a year.

### What's provided by Vhi Hospital@Home?

Firstly, all costs associated with your treatment at home are fully covered by your Vhi Healthcare insurance.

All of your approved medications, laboratory tests, consultations and treatment are provided.

Regular visits as required by your Hospital@Home doctor and nurse team as well as a 24 hour dedicated support line.

### Let's hear what people say about us

Our research found that **99%** of patients would tell friends and family to use the service.

**85%** would actually prefer to use Vhi Hospital@Home again rather than being treated in hospital.
