## How to use this directory:

The directory below summarises the various approved hospitals and treatment centres we cover. These are organised by type of facility and category cover type. The categories are not a reflection on the level or quality of care provided. To determine the level of cover for a particular hospital and treatment centre, check the facility type, find the category cover type from the directory below and refer to your Table of Benefits. We have organised the directory by county to make it easier for you to find those near you.

The directory changes from time to time. Please refer to [Vhi.ie/downloads](http://Vhi.ie/downloads) for the most up-to-date list.
