

Public Notice regarding Vhi SwiftCare Clinics

Vhi SwiftCare Clinics to become a dedicated service for Vhi Customers only from 1st September 2017

Vhi SwiftCare Clinics are Ireland's first walk-in, urgent care clinics, providing rapid treatment and advice for patients with minor injuries and illnesses. The Clinics are located in Dundrum, Swords and Cork and are open 365 days a year from 8am to 10pm.

Vhi wishes to notify all those who may have occasion to use the clinics that with effect from the 1st September 2017, Vhi SwiftCare will become a dedicated service for Vhi Customers only.

This means that from 1st September 2017 only those who hold Private Health Insurance with Vhi Healthcare (in-patient hospital plans including Vhi International) will have access to the Vhi SwiftCare Clinics. Vhi SwiftCare Clinics have become increasingly popular and at times Vhi Customers have struggled to access them. Following an evaluation of how best to deliver services to our customers and in order to ensure Vhi Customers can continue to have speed of access to the Clinics, Vhi has taken the decision to operate them for Vhi Customers only.
